

## **Government to Distribute Contraceptives at Doorstep**

24<sup>th</sup> June, 2011

Mumbai- Constantly rising population of India has always been a matter of concern for the authorities. And to solve the issue the Union Minister for Health and Family Welfare, Ghulam Nabi Azad, has decided to distribute contraceptives at doorsteps. These contraceptives will be available free of cost to encourage people.

This will be conducted in 266 districts where Accredited Social Health Activists (ASHAs) will carry out this door to door distribution to end the beneficiaries.

The government hopes that this drive will add to the awareness among the citizens. Not only will it add in stabilizing the population, it will also help in protection against sexually transferred diseases especially HIV/ AIDS.
